Quite simply, our customer service is second to none, and our engineers can be with you in a flash to solve any immediate problems. But don't delay and wait for the worst to happen, call us now and protect your premises and your business interests all in one go

Please give our friendly sale teams a call on **0161 203 6299**

LOADING BAY/DOCK LEVELLERS:

As a business owner, it's only natural that you'll spend a lot of time pondering what you'd like the front of your store or warehouse to look like. After all, this is what's going to get customers and clients through the door. But it's important that you don't forget all about the back of your shop because, even though it may not be as visually attractive, it's this part of your premises that have a huge impact on your business' processes.

Here at Sheridan Doors we provide a wide range of loading bay equipment to ensure that the "back end" of your premises is running as efficiently as possible. This range of excellent dock shelter and leveller equipment is perfect for any business owner looking to improve their vehicle docking procedures. It's incredibly important for the back end of your business to be functioning smoothly and productively, and the unloading/loading of vehicles is a huge part of this. You want the process to be efficient, quick and safe all at the same time, and our loading bay equipment is a great way to make sure your business is running a seamless operation.

Sheridan Doors provide a range of high level dock shelter and dock leveller equipment, as well as providing a service in which we will repair or replace any existing loading bay equipment without getting in the way of your business procedures! These products are vital to ensuring that your loading bay is operating in a safe and efficient manner, as they are designed towards reducing the risk of accident.

AUTO DOORS:

We install, and maintain a wide range of automatic doors. These doors are suitable for high street retailers, banks, offices, and more.

With this extensive system, a broad range of elegant, strong, and durable aluminium doors can be created. Design appeal is assured with a choice of rail and stile sizes. These offer creative scope and square cut rails that produce almost invisible joints.

SECURITY GRILLS:

Here at Sheridan Doors we understand how important it is to secure your business that's why a security grill can protect your business. Windows are typically a weakness of your business premises. In conjunction with an alarm system, grills offer excellent protection.

RAPID RISER DOORS:

Rapid Riser Doors are high quality products that are designed to meet the requirements made by modern companies relating to safety, reliability and economy, temperature and pest control.

Sheridan Doors offer a wide range of high speed doors tailored to suit your business requirements.

TRAFFIC BARRIERS:

Sheridan Doors offer a wide range of traffic barriers from manual to automated barriers or "Boom gates". These are typically found at the majority of car park or company access points and entrances to restricted areas.

They are also the usual method for controlling passage through toll booths.

In some places, boom gates are installed as a traffic calming measure, preventing through traffic, while allowing authorised vehicles a direct route.

FIRE DOORS:

Here at Sheridan Doors, we offer a fantastic range of fire doors that will ensure that you are keeping your commercial premises safe. We have a wide variety of fire exit doors currently available; including a choice between single and double doors that all come with different escape options. All of our doors are available with external access if that's your preference as well as simple frames that ensure a quick installation time.

Our fire doors are designed to prevent the spread of any fire or smoke, and are absolutely essential for any businesses wanting to improve their security. A set of our high quality fire doors will ensure the increased safety of your staff, customers and products, meaning that you'll be fully prepared if there is a fire in your premises. We offer a range of FD30 and FD60 doors adhering to current fire regulations.

If you require any further information on how Sheridan Doors can provide you with a set of excellent fire doors, then please don't hesitate to contact our dedicated team.

SECTIONAL OVERHEAD DOORS:

Sheridan Doors provide a range of excellent sectional doors that are manufactured with the highest quality steel you'll be able to find. Each one of our doors are made with thick steel panels making them extremely weather resistant and impossible for a potential burglar to penetrate. The steel doors are held together by IPU foam and are some of the strongest doors that we have available.

We pride ourselves on how smoothly our sectional doors operate and how easy they are to use, as well as their durability. You are guaranteed to get your money's worth out of our sectional doors due to how long they last and how little maintenance they require.

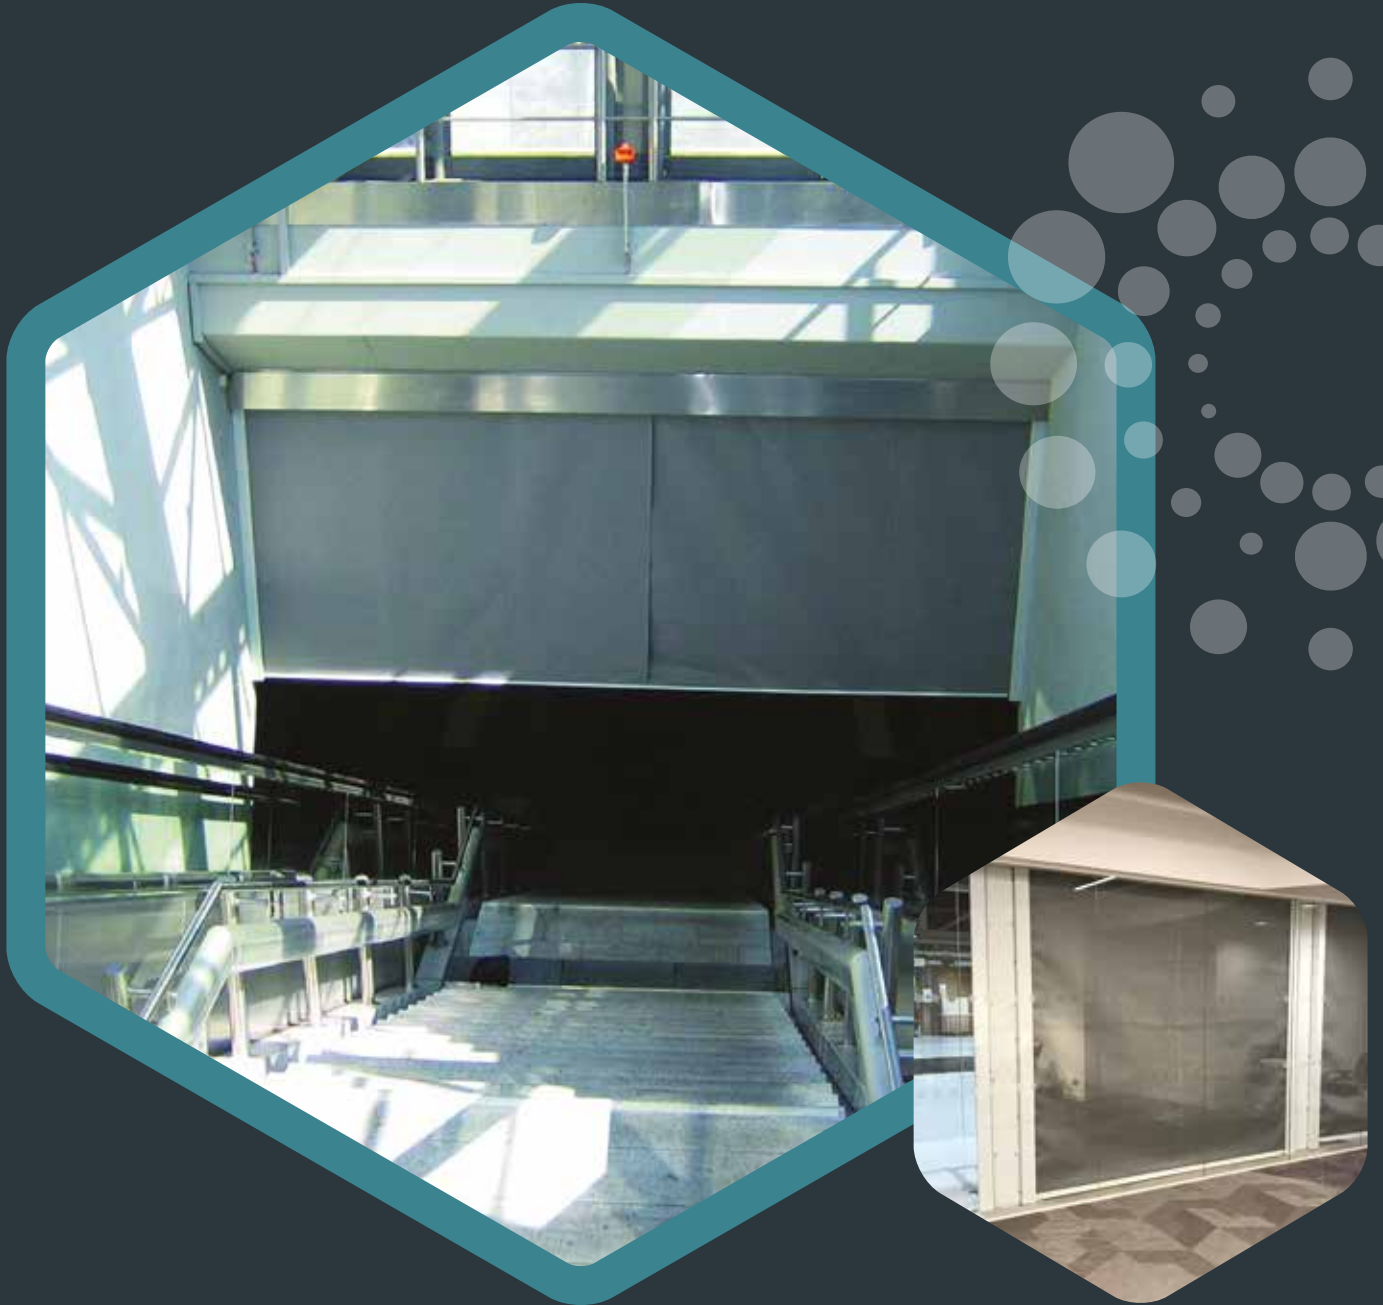

Our sectional doors are extremely customisable and we have a range of different panel options available. You might just have a hard time trying to choose a colour from our extensive catalogue! They also come with lubricated bearings to ensure they run soundlessly and smoothly, meaning that you won't have to worry about any annoying noises.

We recommend that you contact our dedicated team for further information on our sectional doors, as there is such a range of options available that you may want to speak with an expert. There is a variety of manual and automatic operations, different seals and a wide range of optional extras for you to take into consideration.

SMOKE/FIRE & PVC CURTAINS:

At Sheridan Doors, we are the leading provider of high quality fire curtains and pride ourselves on the level of protection that we are able to provide. Our fire curtains have been responsible for saving countless properties, lives and stock as they help to keep fire at bay, and you should certainly take a look at our range if you take the safety of your business seriously.

All of our smoke and fire curtains are custom made so that they are completely suited to your premises. No matter what your application, Sheridan Doors are able to provide a selection of high quality fire curtains that will complement the aesthetics of your building whilst also keeping you well protected. Our smoke curtains are of a superior strength and durability to those offered by similar businesses, as well as having unrivalled levels of heat resistance.

We also provide fire curtains made with thicker gauge materials and an all steel component construction. These are designed for industrial use, and are linked up to an alarm system so that they automatically activate in the event of a fire, meaning that any damage caused by the fire would be kept to a minimum.

AUTOMATED/MANUAL GATES:

At Sheridan Doors we also offer high end security gates. Our Barriers offer a wide range of security gates, helping you to secure and protect your private residence or commercial establishment, and giving you added peace of mind.

Security gates are a great long term financial investment. They'll help to keep any residential, commercial or industrial building both monitored and protected.

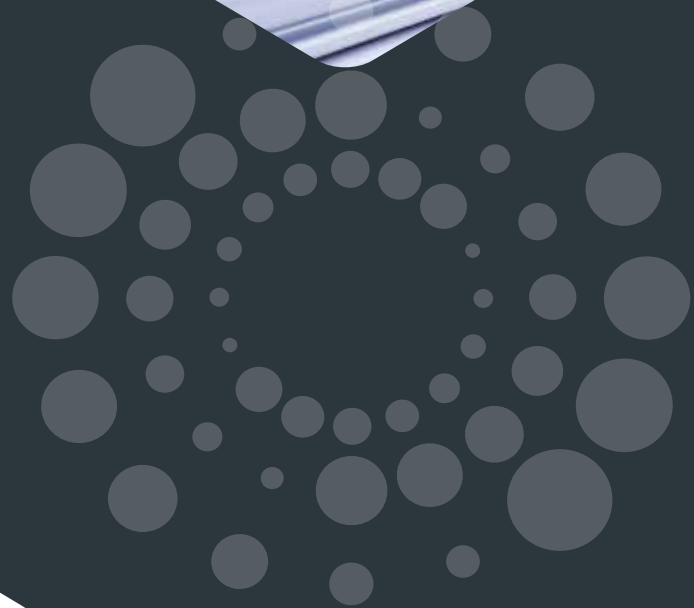

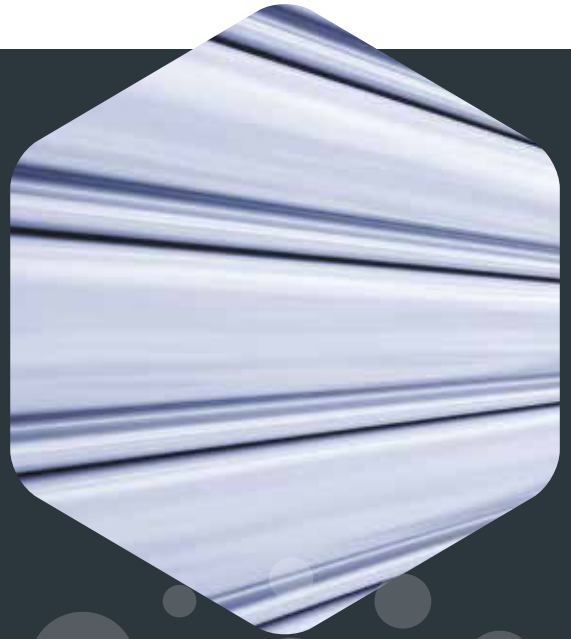

Our security barriers and security gates come in all shapes and sizes, so whether you're looking for a heavy duty and durable gate barrier, such as our steel security gates, or something more lightweight and easily portable, we have it all.

ROLLER SHUTTERS:

There is nothing more important than the security of your business, and that's why Sheridan Doors provide a range of high quality roller shutters. We utilise a range of the best materials around meaning that we are able to provide shutters of the highest standards in a range of styles.

Installing a set of roller shutters comes with a range of benefits that should not be ignored. For example, your business will be better protected against any potential thieves or vandals most of which will be deterred by the sight of the shutters themselves. Roller shutters are also great insulators, meaning that you'll find yourself making a saving on your energy bill in no time at all.

Sheridan Doors provide a range of aesthetically pleasing traditional and insulated roller shutters, which can be used in both commercial and domestic applications. We have the best range of materials and shutter styles around, and so we're bound to have something for everyone!

But choosing to install a set of roller shutters is just the beginning, and you also need to ensure that they are properly maintained and cared for. Sheridan Doors also provide a variety of roller shutter maintenance services to make sure that your business remains secure and your shutters are fully functional. Whether you want to repair or replace some existing roller shutters, or you have decided to replace a standard set of doors, then you should look no further than Sheridan Doors!

Please contact our dedicated team of experts if you need more information on our range of roller shutters or any of the other services that we provide.
